INSIDE TRT MANUFACTURING

Our contract manufacturing services provide agile and scalable production, adapting efficiently to any volume and market demand. This flexible approach integrates seamlessly with your supply chain, offering cost-effective solutions for expanding market reach.

MANUFACTURING TOOLKIT

Quality and Compliance

Meeting International Standards

- **ISO 9001 certified.**
- Client requirements integrated into the **quality system.**
- **Registered Major Hazardous Installation (MHI).**
- Aerosol facility designed to **global standards.**
- **Advanced safety features:** positive airflow, floor-level extraction, gas sensors linked to SCADA, and interlocks.
- Holds a **flammable permit.**
- **Produces RO water** at $<5\mu\text{S}/\text{cm}$ at 7-8 cubic meters per hour.

Research and Development

Innovation & Custom Formulation

- **Dedicated Innovation Hub:** Our R&D division focuses on advanced formulation and custom solutions.
- **Tailored to Your Vision:** Solutions are crafted to match your specific product goals.
- **Expertise & Resources:** We use our knowledge and cutting-edge tools to innovate.
- **Market-Ready Products:** We transform ideas into products ready for the market.
- **Empower Your Advantage:** Our goal is to boost your competitive edge.

Distribution with

End-to-End Capabilities

- **African Trade Engine:** TRT Manufacturing & Trade Depot partnership. From concept to shelf, we are a leading distributor of high-quality products across Africa.
- **Building for the Future:** Strategic alliances for growth and resilience.
- **Smart Data:** Turnkey, data-backed manufacturing and distribution platform.
- **Stronger Collaboration:** Bringing high-quality, viable products to life from concept.
- **The AfCFTA Dream:** Building an Africa of shared prosperity and self-reliance.

QUALITY & COMPLIANCE

Our factory is a state-of-the-art facility committed to excellence in every aspect of production. We are proud to service multi-national clients and uphold the highest standards in the industry.

Quality

- Quality production via best practices.
- Advanced microlab facility for in-depth analysis.
- Rigorous testing protocols ensure high standards.

Sustainability & Impact:

- Strong ESG focus for responsible operations.
- Generates local employment opportunities.

Compliance

- Strict adherence to GMP (Good Manufacturing Practices).
- Full traceability and documentation of all materials and processes.
- Holds all relevant certifications.
- SARS licensed for ethanol storage and handling.

Advanced Infrastructure

- Gas Storage: Three 50,800L butane tanks with SCADA-linked telemetry, extensive sensors, and deluge fire-fighting.
- Ethanol Storage: Two 69,000L underground tanks, piped directly to manufacturing.

R & D (RESEARCH & DEVELOPMENT)

Innovating Tomorrow's Products, Today.

At the core of our competitive advantage is our world-class Research and Development division. We provide clients with the advanced formulation capabilities, expertise, resources, and infrastructure necessary to thrive in the global marketplace, accommodating a comprehensive range of product requirements and production volumes.

Why choose TRT Manufacturing

Trend driven formulation

AFRICAN TRADE ENGINE

The partnership between TradeDepot and TRT Manufacturing creates a comprehensive, data-driven solution for manufacturing and distributing products throughout West Africa, leveraging TradeDepot's vast retail network and distribution knowledge with TRT Manufacturing's significant contract manufacturing capabilities to offer immediate scale and valuable market insights.

Unlocking Africa's industrial potential

Empower local manufacturers

Integrated platform

AfCFTA alignment

African innovation for Africans, by Africans

Closed looped system

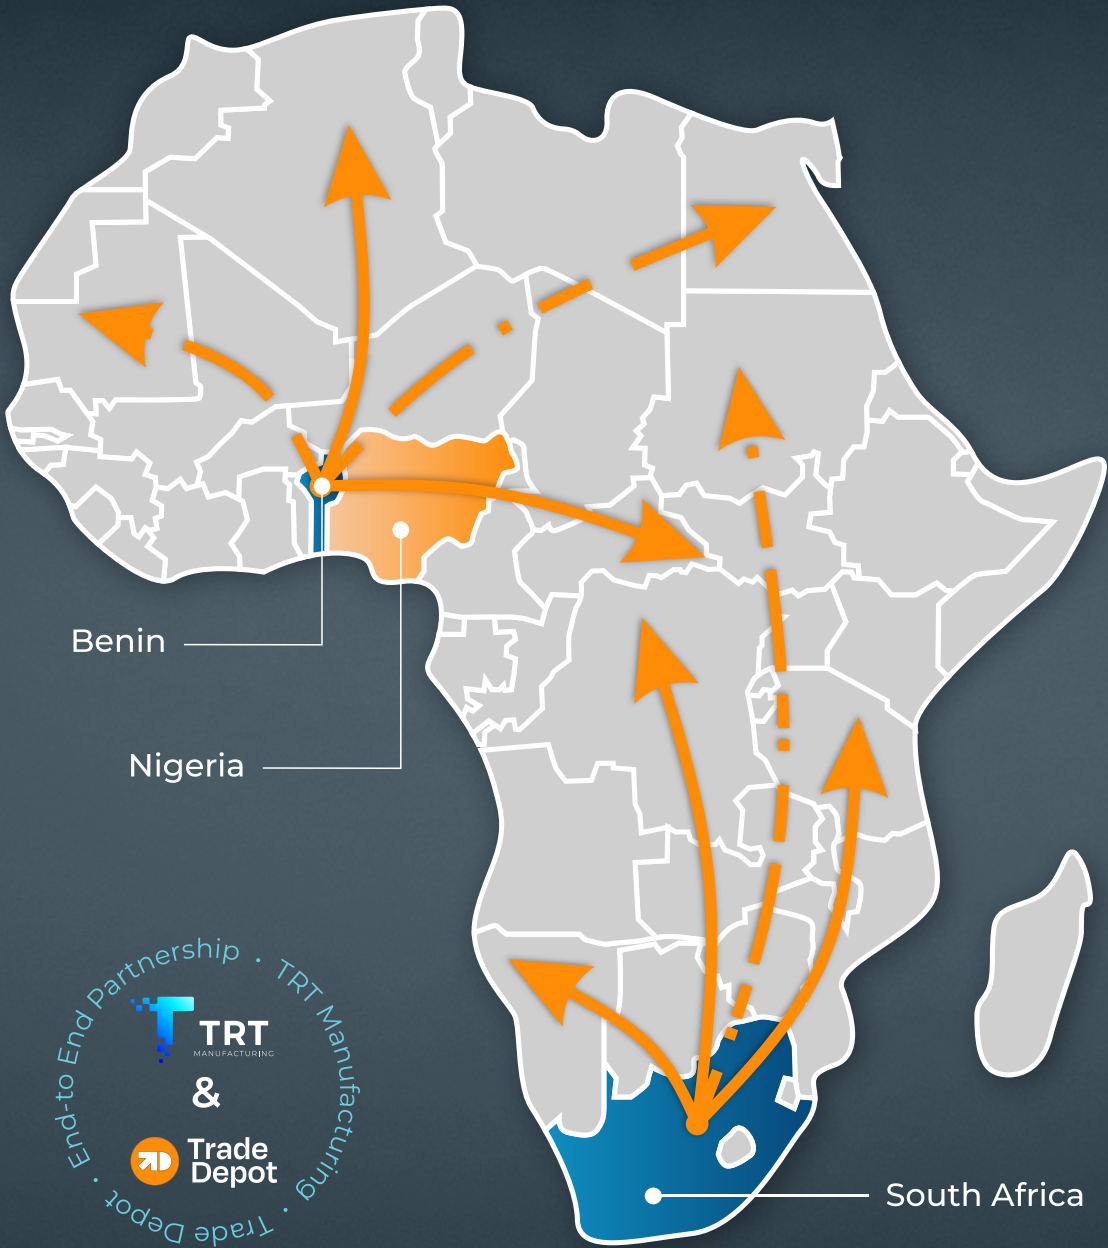

Data-driven systems

Building shared prosperity and self-reliance

Joint venture with TRT Manufacturing & Trade Depot

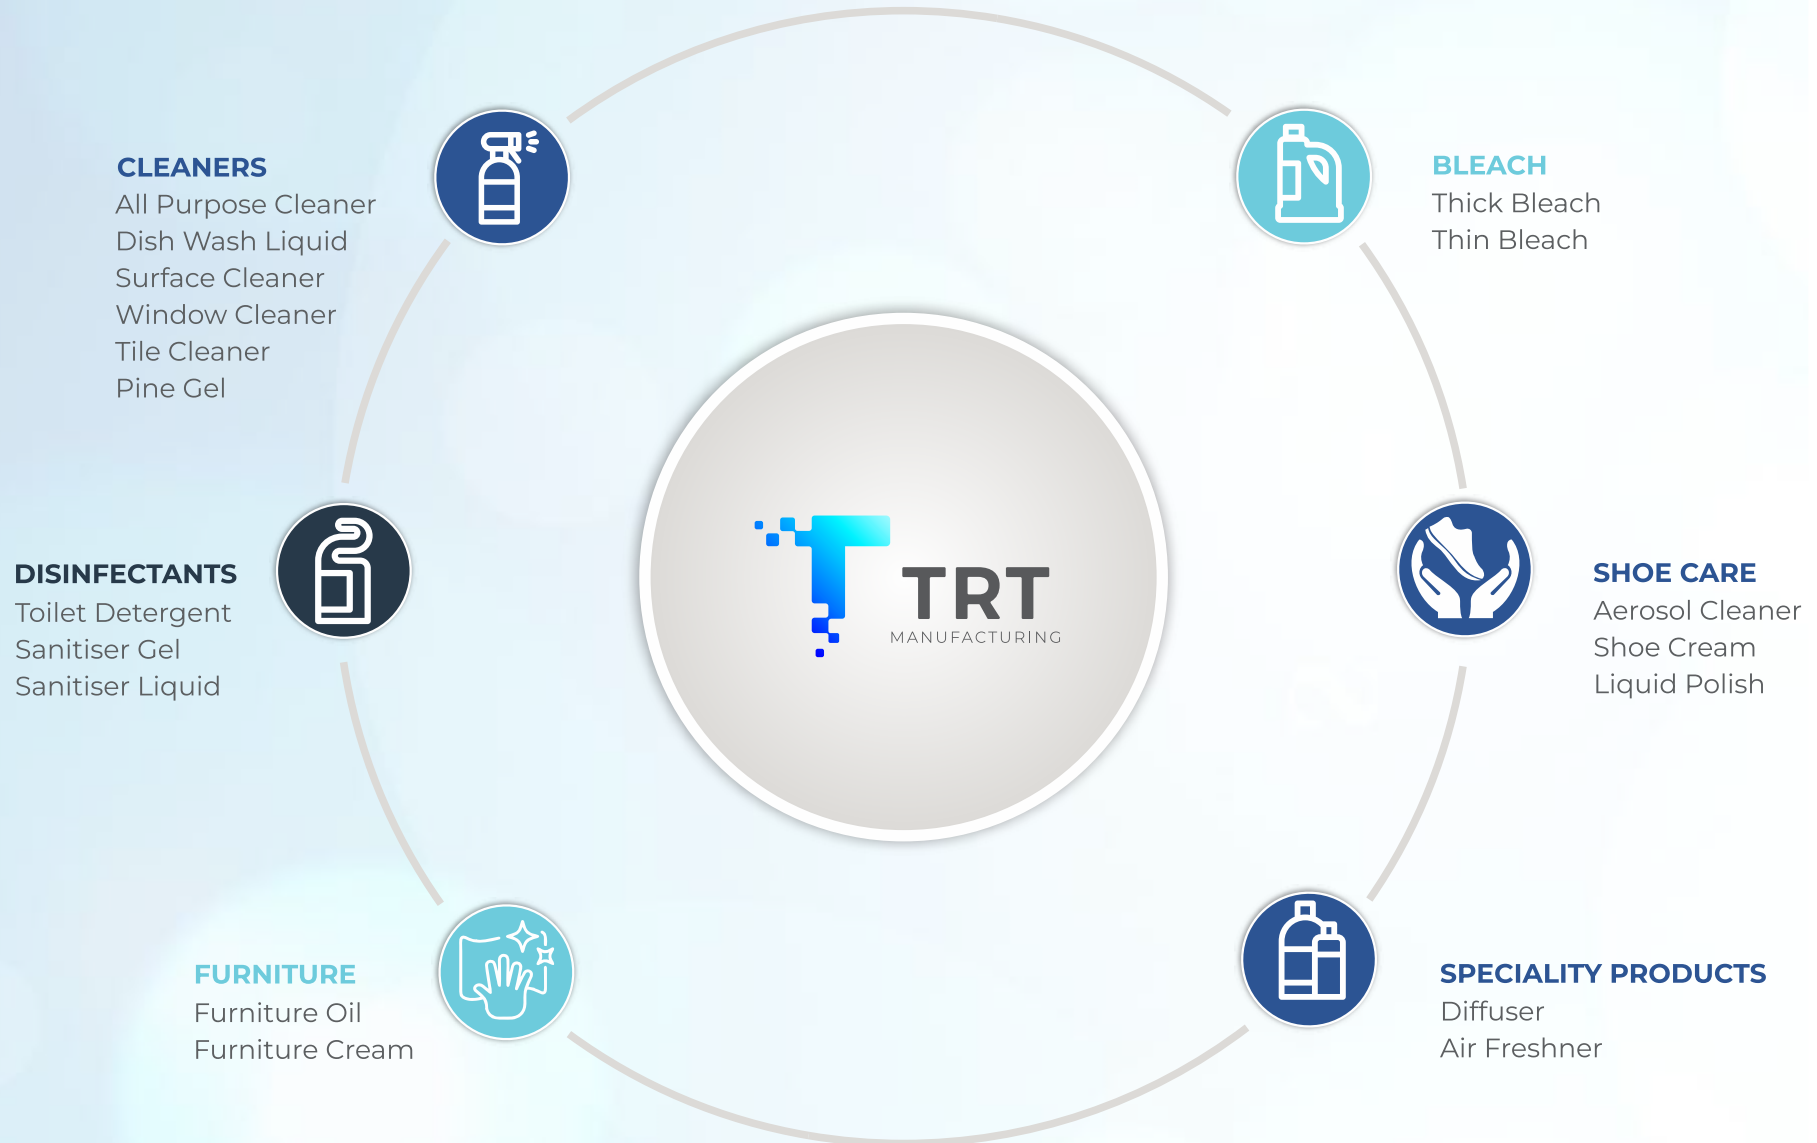

Our partnership with Trade Depot in Nigeria immediately opens up **200,000** existing outlets, providing our clients with a significant opportunity to expand their market reach across Africa.

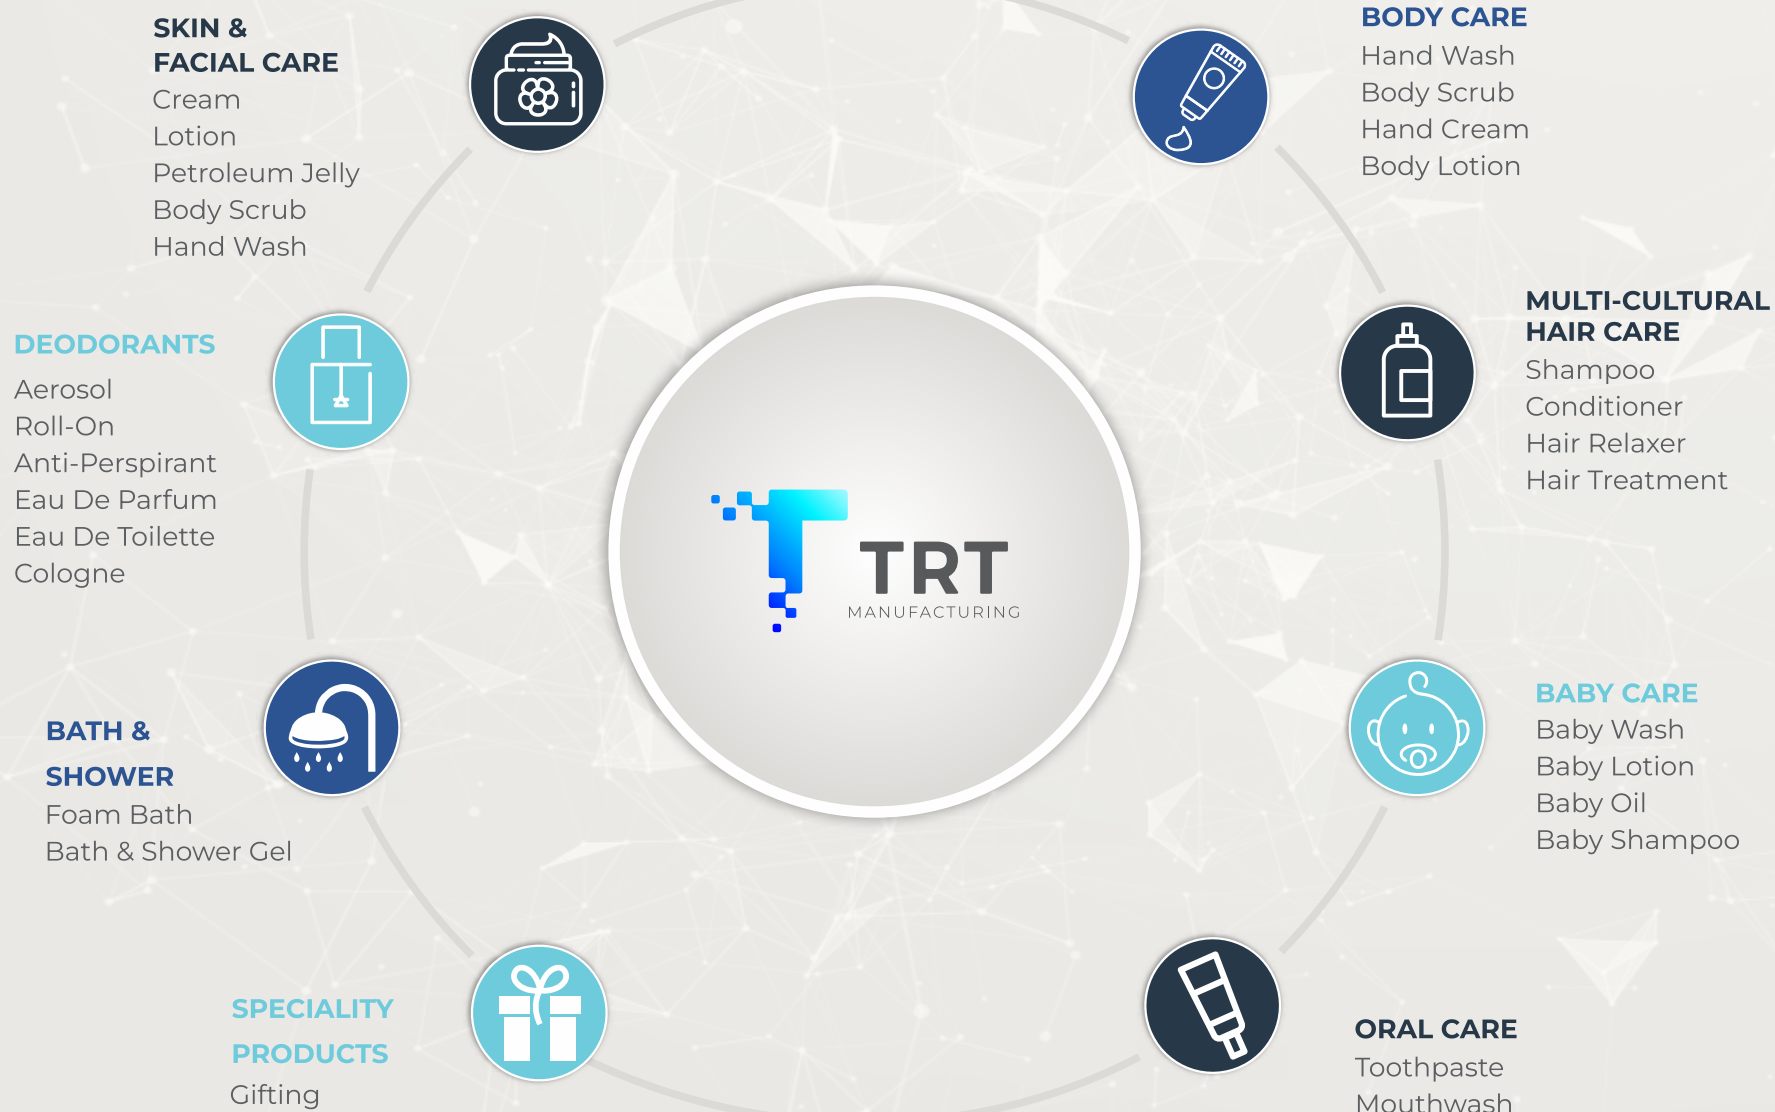

PRODUCT RANGE.

We operate and innovate with agile and efficient models of manufacturing. We create relevant product solutions centred on data-driven insights for the modern consumer.

MECARE

PERSONAL CARE

OUR VALUED CLIENTS

Proudly serving as a trusted third-party manufacturer for leading brands.

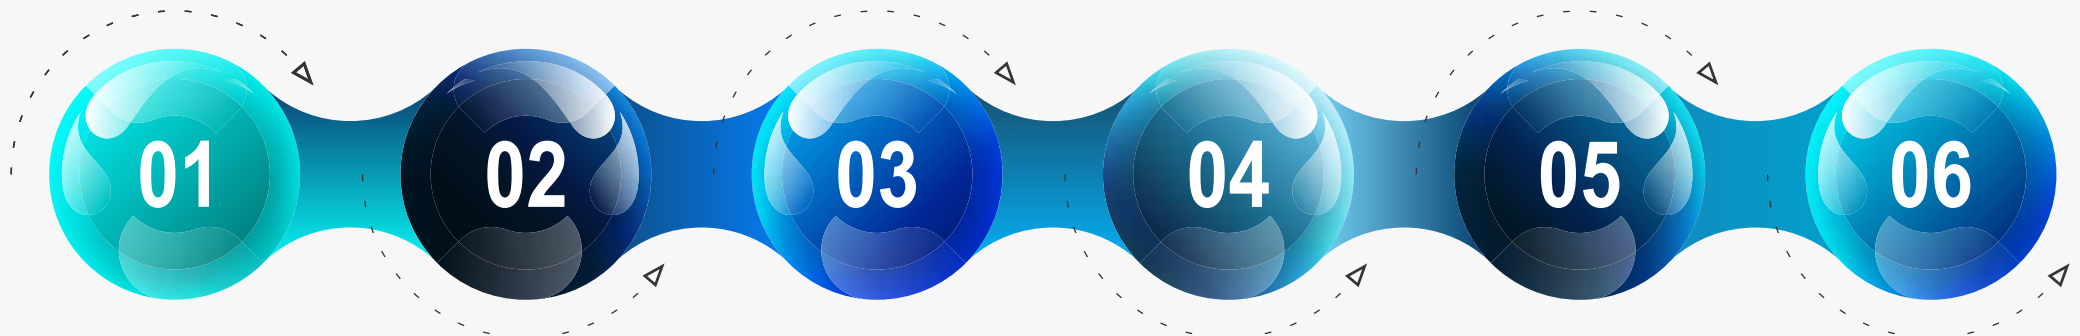

POWERING POSSIBILITIES: YOUR VISION, OUR EXPERTISE. JOIN US TO BUILD IT TOGETHER.

NDA - Sign a non-disclosure agreement

Product Development Brief - Provide detailed brief and volume requirements

Costing Models - Choose between free issue cost model or managed source cost model

Site Visit - Discuss project requirements and capabilities

R&D - Source materials, provide samples & conduct stability testing

Agreement - Execute SLA and commence production
